Celebrating years

A brief reflection...

A beautiful professionally constructed swimming pool makes an impressive statement and presents the realisation of a lifelong dream. It is a pleasure out of the ordinary not necessarily essential but like all luxuries, highly desired. It will reflect your achievements in life, your taste, and your love of life. It will come to hold lasting memories of wonderful times. It will bring you endless enjoyment.

Most people will have a vision of their own swimming pool in their mind's eye. At Portrait Pools, we have nearly 3 decades of experience and expertise to take that a step forward, to open up the countless possibilities and to capture the essence of your lifestyle. We love nothing better than to take your initial concepts and deliver you with something you could never have imagined would be possible and most importantly it would be yours.

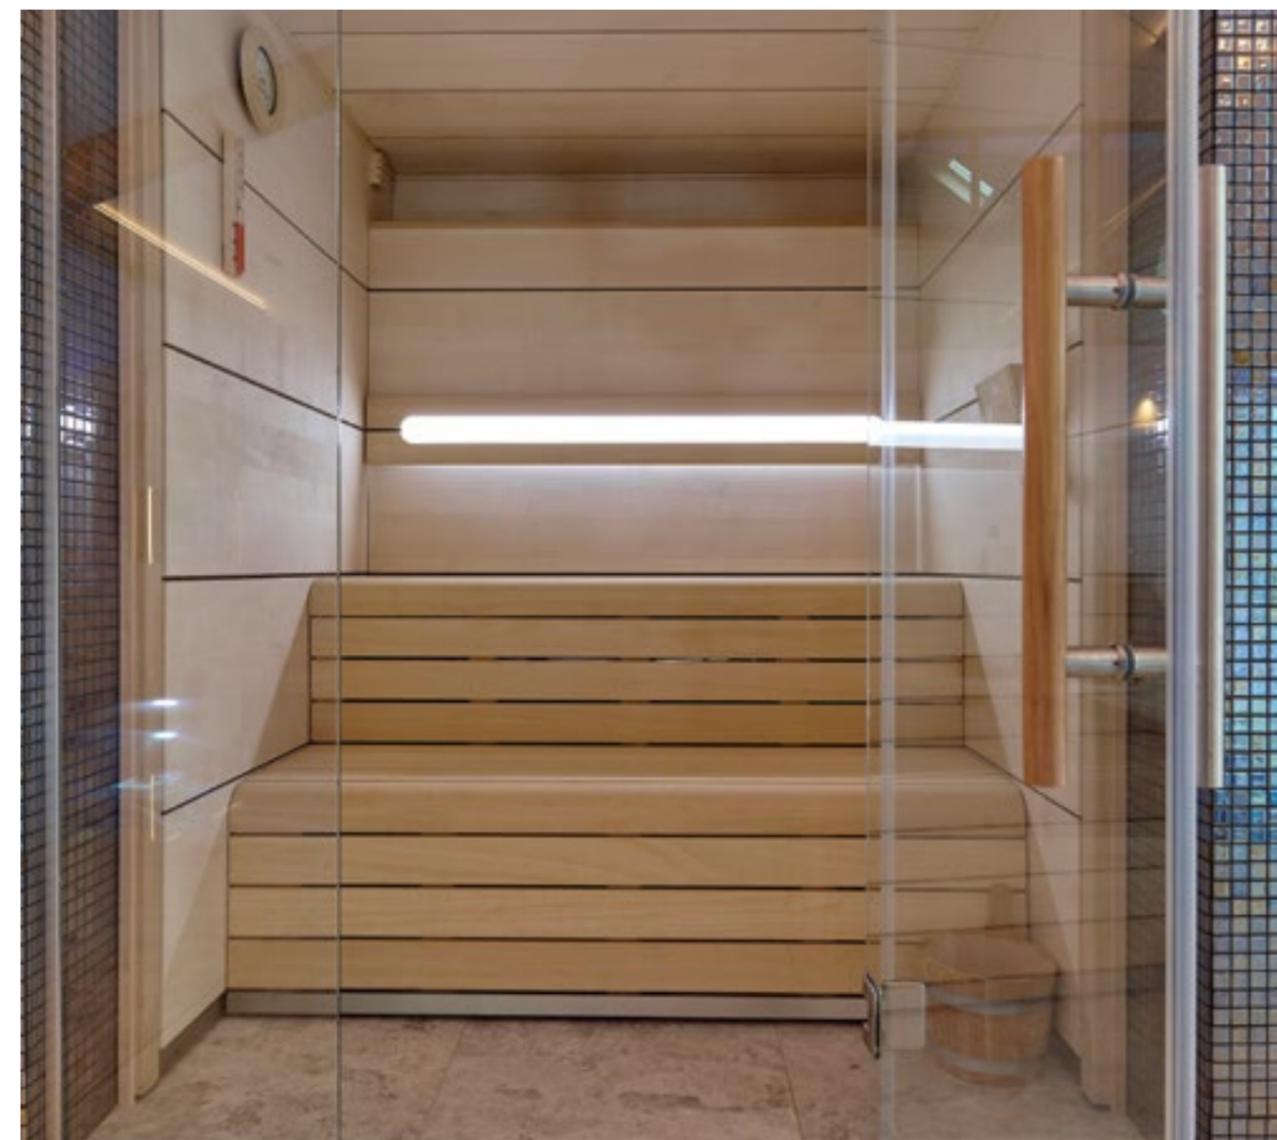

Indoor Residential Projects

Portrait Pools have become synonymous with producing beautiful, high quality, award winning pools; that will enhance any property from converted barn to stately home. Our vast knowledge, consummate skill and unrivalled experience will ensure that your pool functions as beautifully as it looks. Our indoor pools, spas and wellness suites transform any space into a fantastic sanctuary where the family can relax and be entertained whatever the season. We combine the best in functionality and versatility with the latest state of the art technology to deliver the ultimate luxury experience.

Personal free time has never been as precious as it is in today's fast moving society. Owning your own personal leisure suite will give you the freedom to take time out and relax to prolong your health and wellbeing.

Our knowledge, expertise and commitment means each pool is a unique statement of its owner; whether you want a pool to keep fit, keep the young and young at heart happy or simply your own personal utopia, you can be sure our knowledge and commitment means your pool will be distinctive in its own right.

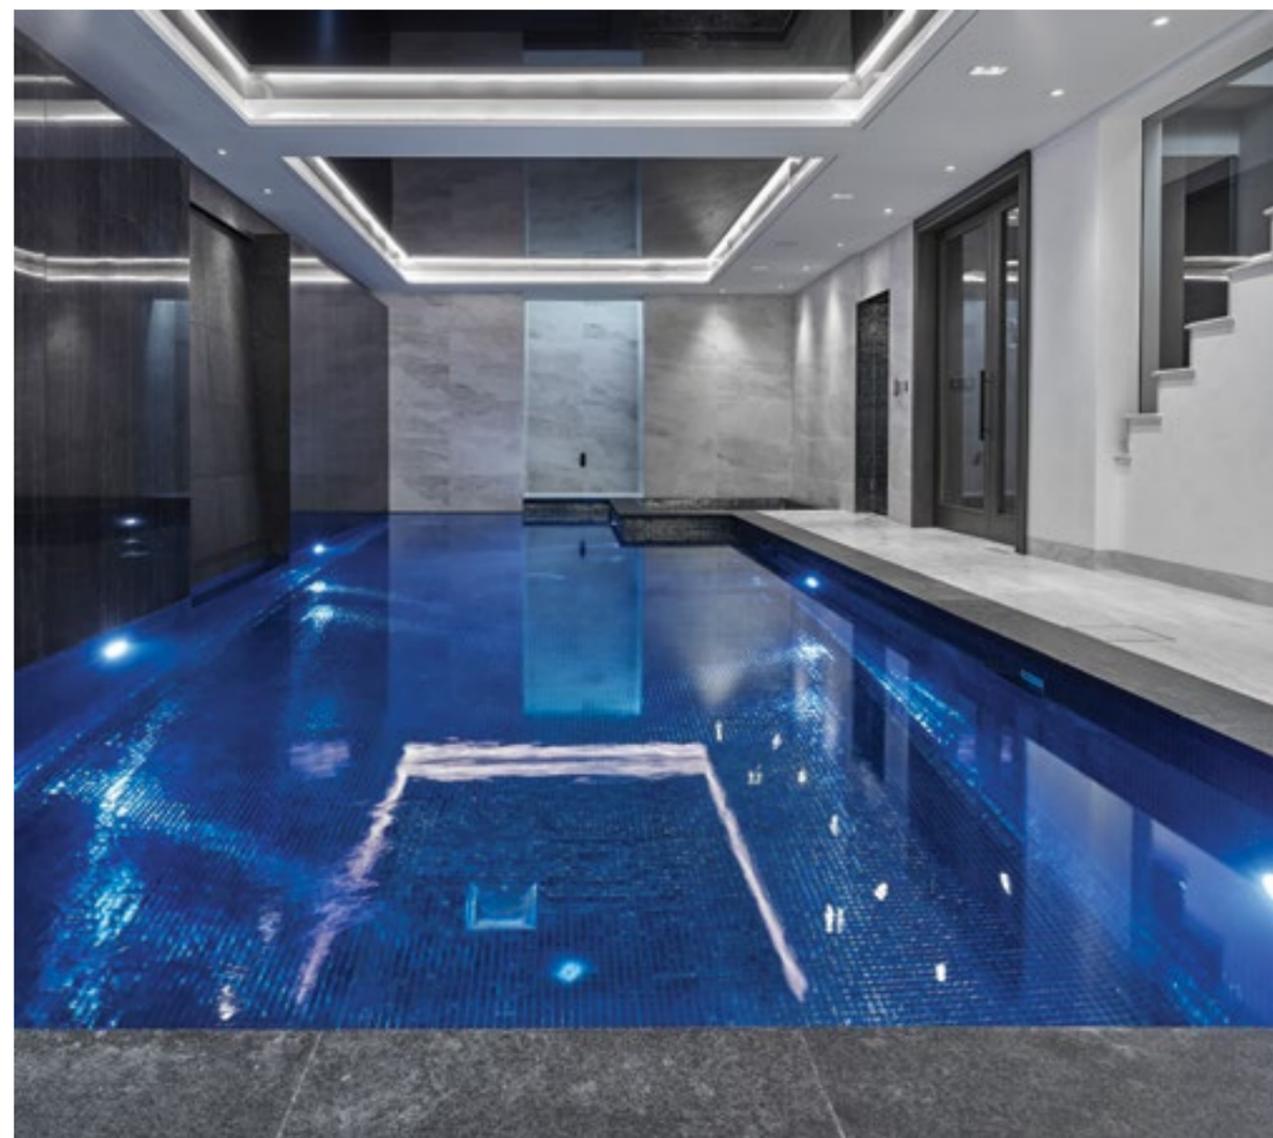

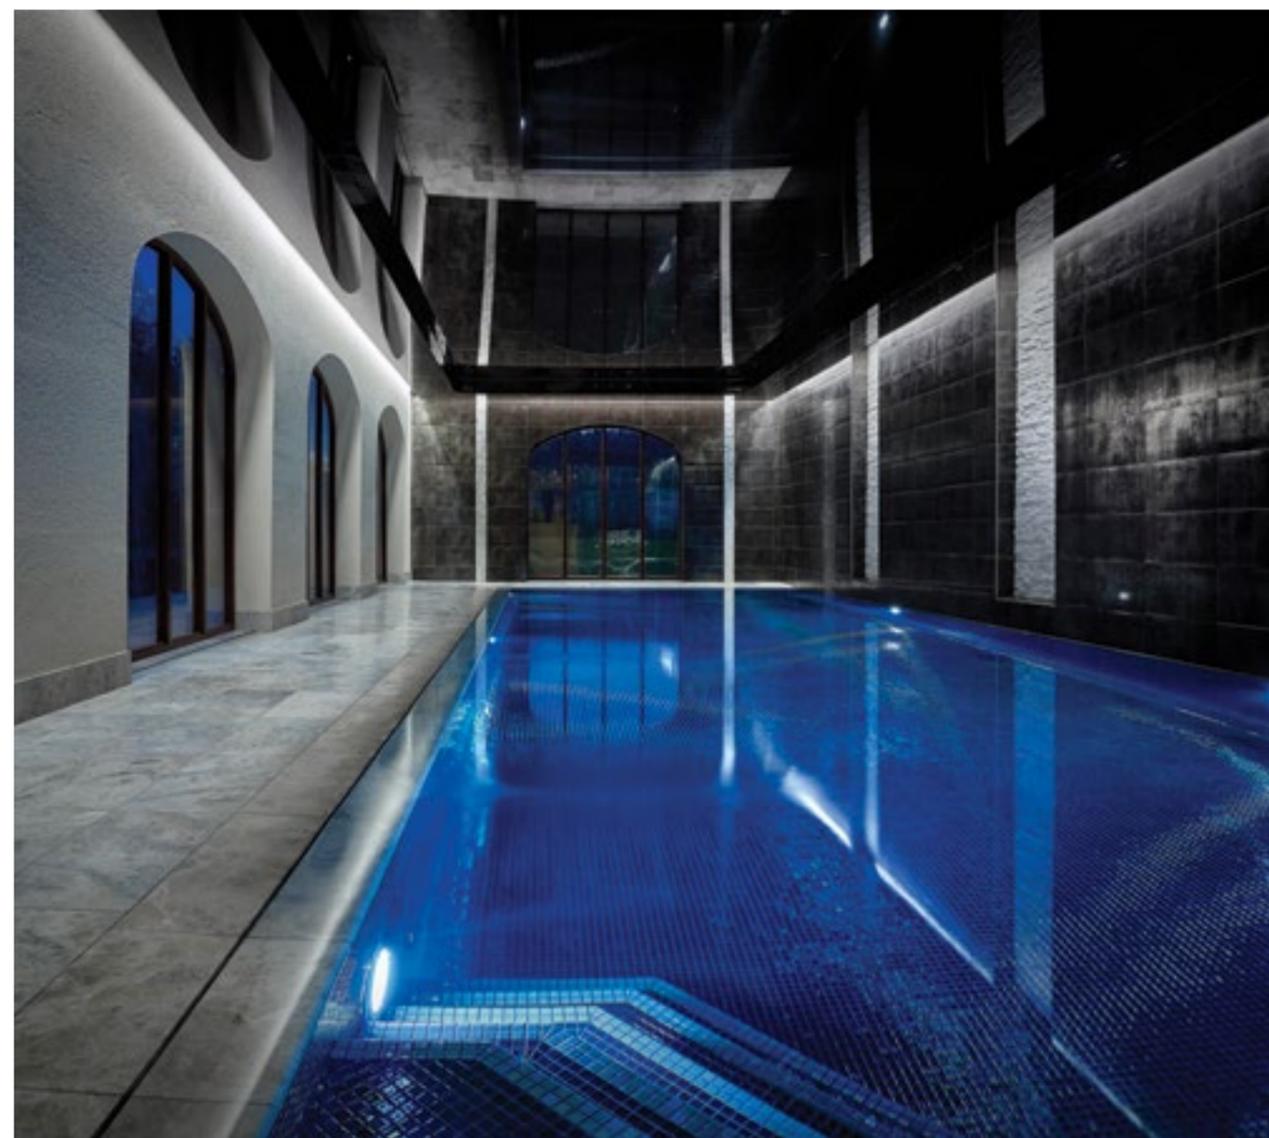

Outdoor Residential Projects

There are very few greater pleasures in life, on a beautiful summer's day, than relaxing in your own outdoor swimming pool. Our swimming pools, while maintaining a clean, beautiful look in the landscape, add real individuality to the home environment and extend your style to the outdoors.

So, whether you use your pool for fun, fitness or just to relax, our designers aim to create an aesthetically pleasing outdoor living space that reflects your needs and surpasses the highest expectations.

Design & Computer Generated Images (CGI)

From your initial enquiry to the moment you take the plunge for the first time, you will find our service matches the quality of our pools every inch of the way. After an amazing showroom experience and initial consultation to agree budgetary figures, we produce concepts for the project in the form of CAD drawings. We then consult with you and fine tune until you are completely satisfied and have approved every detail.

There is then the option for us to produce a Computer Generated Image so you can visualise everything perfectly with photorealistic images of how your project will look. Once you give your final approval you can be sure your dream pool will be built to award winning standards.

Finished build

Finished build

Colour Coding

Ceiling finish matches polished ceramic floor tiles.

Smooth high quality wall finish compliments both floor and ceiling.

Natural Light

Ceiling skylights illuminate throughout the day and provide the perfect spot to star gaze at night.

Real Life Background

A state of the art printed background provides an amazing, seamless and lifelike backdrop of your choice.

Bespoke Tiling

This beautiful bespoke pattern creates your unique pool. Each tile is hand layered for the perfect finish.

Coloured Lighting

The room can be flooded with any colour to suit your mood, in this case vibrant blue.

Sound Proof Glass

Adjoining Leisure facility and wellness suites.

Lighting & Ceiling Effects

Our expert designers use specialist lighting and ceiling effects to improve the overall impact of the development. Clever use of lighting above and surrounding a pool or spa is responsible for creating and controlling the ambience, atmosphere and mood.

Stretch ceilings offer a world of possibilities. They hide unsightly building features, light/alarm and air conditioning fixtures behind a strong, stretched flexible membrane. It has good acoustic properties along with vapour control and has a surface that can be digitally printed with any design that will have a powerful effect by maximising the reflection of light and ripples from your pool.

Combining clever lighting with a printed stretched ceiling creates an immersive visual experience that vastly enhances the pool or spa development.

Fountains & Water Features

Whether they mimic nature or create an exciting, revitalising feature, waterfalls and water features are used to add sophistication and beauty to homes. Grandiose or a subtle water feature enhances any development.

The features are calming and soothing and are constructed from a vast range of lavish natural materials; they have a universal appeal that all ages can admire and enjoy. You will be excited to share this ultimate luxury with family and friends.

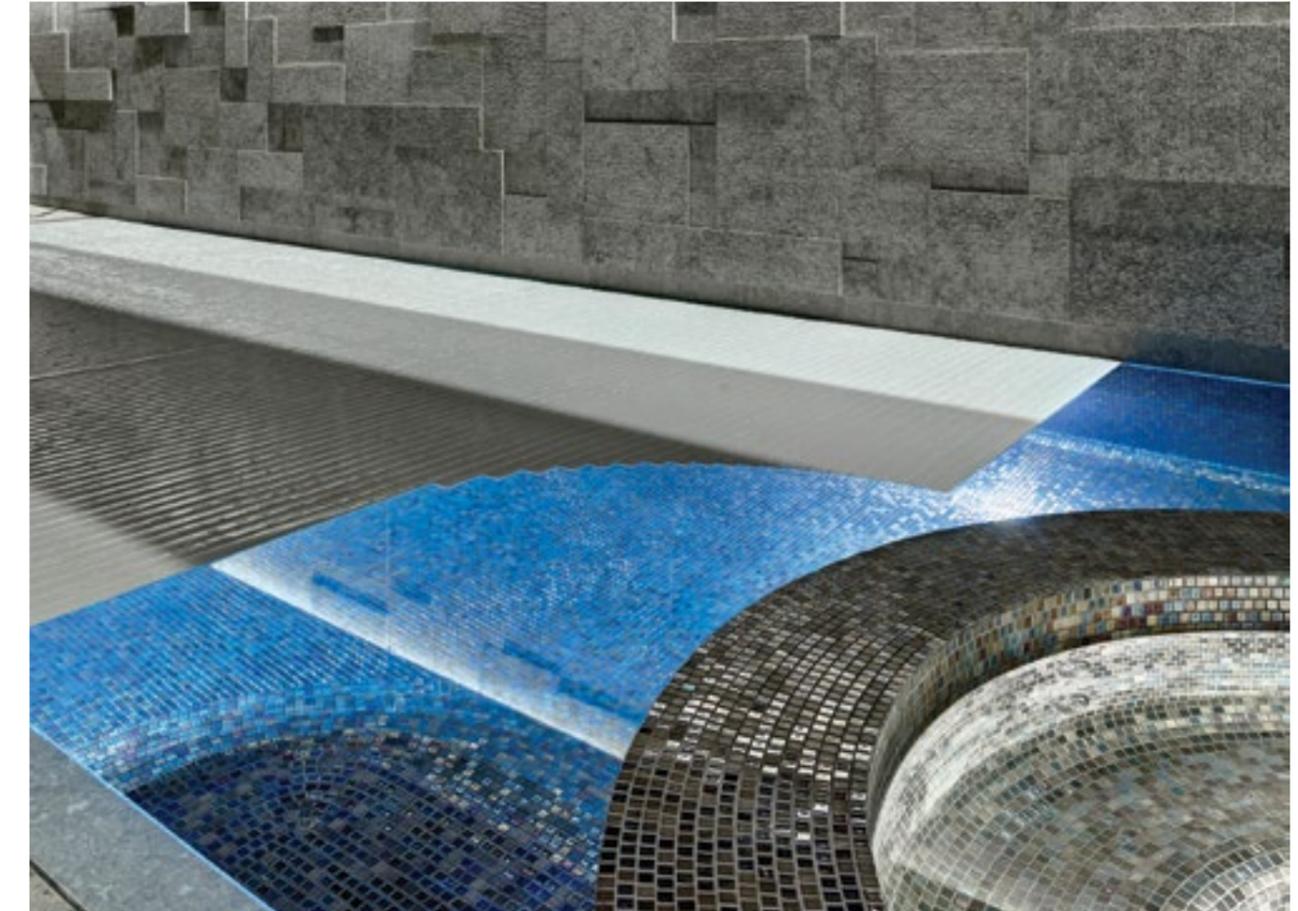

Moving Floors

Like the roll-on room, moveable floors provide you with an additional useable space in your home. This highly flexible system delivers the luxury of raising or lowering the floor of your pool to any preselected water depth. This provides safer, shallower depths of water for children or to enable disabled persons with special needs to benefit from the pool. As well as the additional space when the floor is fully raised, the energy costs for heating are greatly reduced. It will transform your pool room into a function room in minutes with the press of a button.

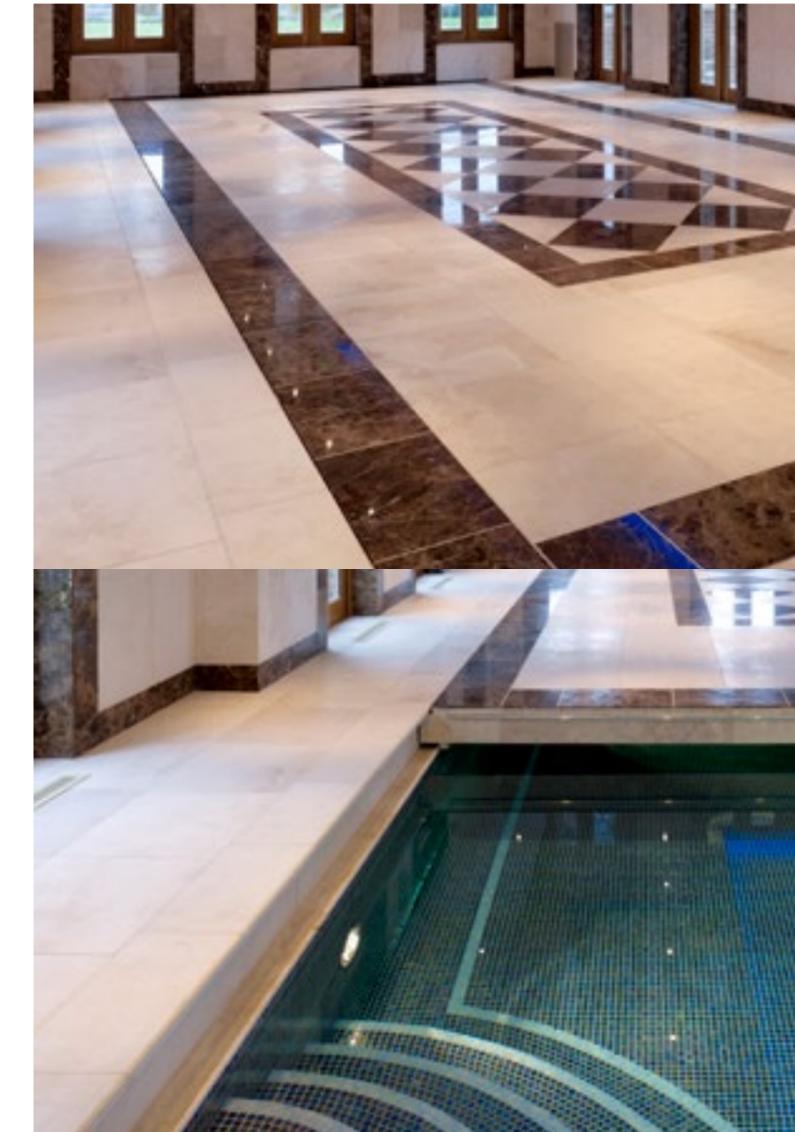

Auto Pool Covers

As well as looking good an automatic pool cover has many very useful functions. At the turn of a key it can offer a superb safety barrier that protects your family from harm. In addition, pool owners benefit from cost efficiencies from the reduction of water and chemical evaporation, lower heating and operational costs as well as the barrier keeping dirt and debris out of the pool which helps lower overall maintenance costs.

Roll-On Room

Our clients demand the very best and we make sure we can deliver it in each and every project we undertake.

Innovation is an integral part of everything we do and our designers are continually looking for new, more efficient and inventive products that can enhance the overall pool experience.

A perfect example of this is what we call our 'roll-on room'. We can create a multi-functional area that will give you so many options. At the flick of a switch a solid floor will glide across to safely cover your beautiful swimming pool and create a new space. Available on new build pools and as a retrofit, a rolling floor is a versatile safe and secure pool covering solution. The roll-on floor transforms an indoor pool into a party space or a games room and complemented by a cinema, bowling alley and bar, the latest residential spa developments set new standards in extravagance. The floor looks fantastic and is finished with a wide range of products from natural stone, ceramic tiles or even timber to match the remainder of your pool surround. The technology is state of the art and the effect is breathtaking.

Wellness

At the end of the day, there is no better place to unwind and relax than in your own pool. It is the perfect environment but we can offer you so much more... and your own personal 'wet area' can enhance the whole experience.

We build spas, saunas, steam rooms and Hydro spas, all of which can be incorporated into the design of your pool ensuring that each element will blend perfectly into the overall concept. This is about taking the pleasure you get from your pool to a different level and it's about enjoying life to the full.

Portrait Pools have recently partnered up with one of the World's leading luxury Thermal Wellness equipment suppliers, Sommerhuber. A selection of their fantastic product range is shown in this brochure, further examples can be experienced in our New Wellness Showroom.

Civil Engineering

We personally manage every element of the project from design through to installation. This ensures each project hits all our strict timing, quality and budgetary performance indicators.

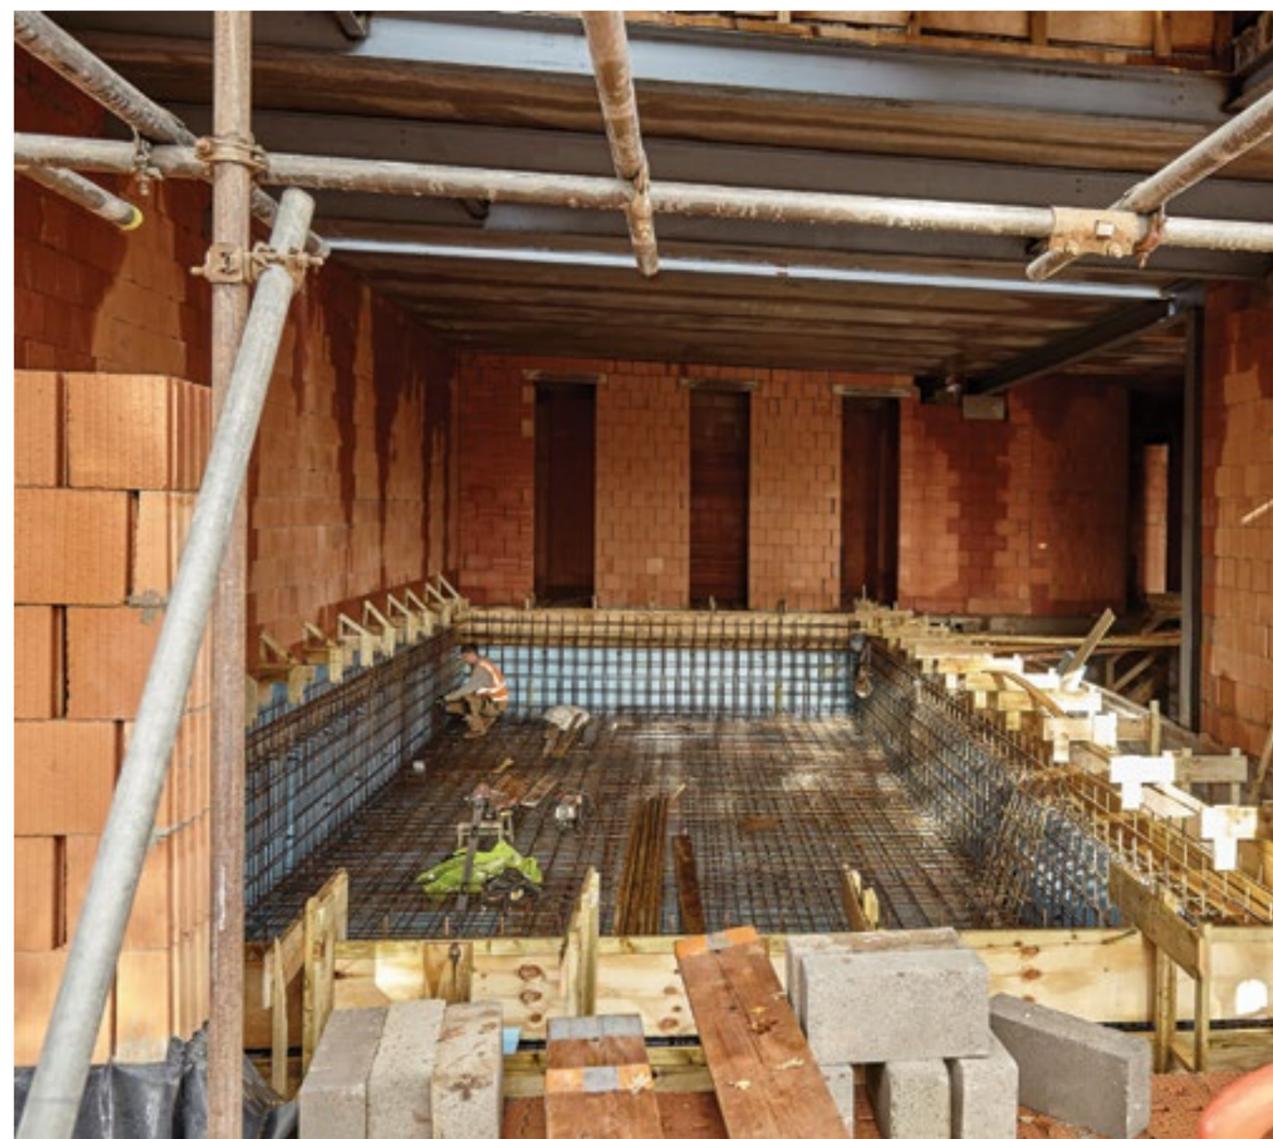

All factors are carefully considered, these key considerations include:

- Site conditions
- Proposed use of basement
- Basement construction type (substrate material)
- Necessity to protect against soil contaminants / ground gasses
- Tanking Systems

From first foundations...

...to finishing touches

Maintenance

Our service doesn't stop when your pool is completed as we provide an all-encompassing maintenance service that defines the standards within the industry. We will ensure that everything is working as perfectly as it was on completion and you will be able to purchase pool chemicals, covers and equipment directly from us.

In the highly unlikely event of there being a problem we have a 24-hour helpline. Your complete satisfaction and reassurance is our priority.

Environmental Policy

We recognise our responsibility towards protection of the environment and we are committed to minimising the environmental impact of our products and business activities. To fulfil this policy, we ensure that every aspect of our activities is conducted in accordance with sound environmental practices. This includes: minimising the consumption of natural resources and energy, reducing the creation of waste by recycling of materials whenever practical and most importantly promoting new products and processes that have an improved environmental performance.

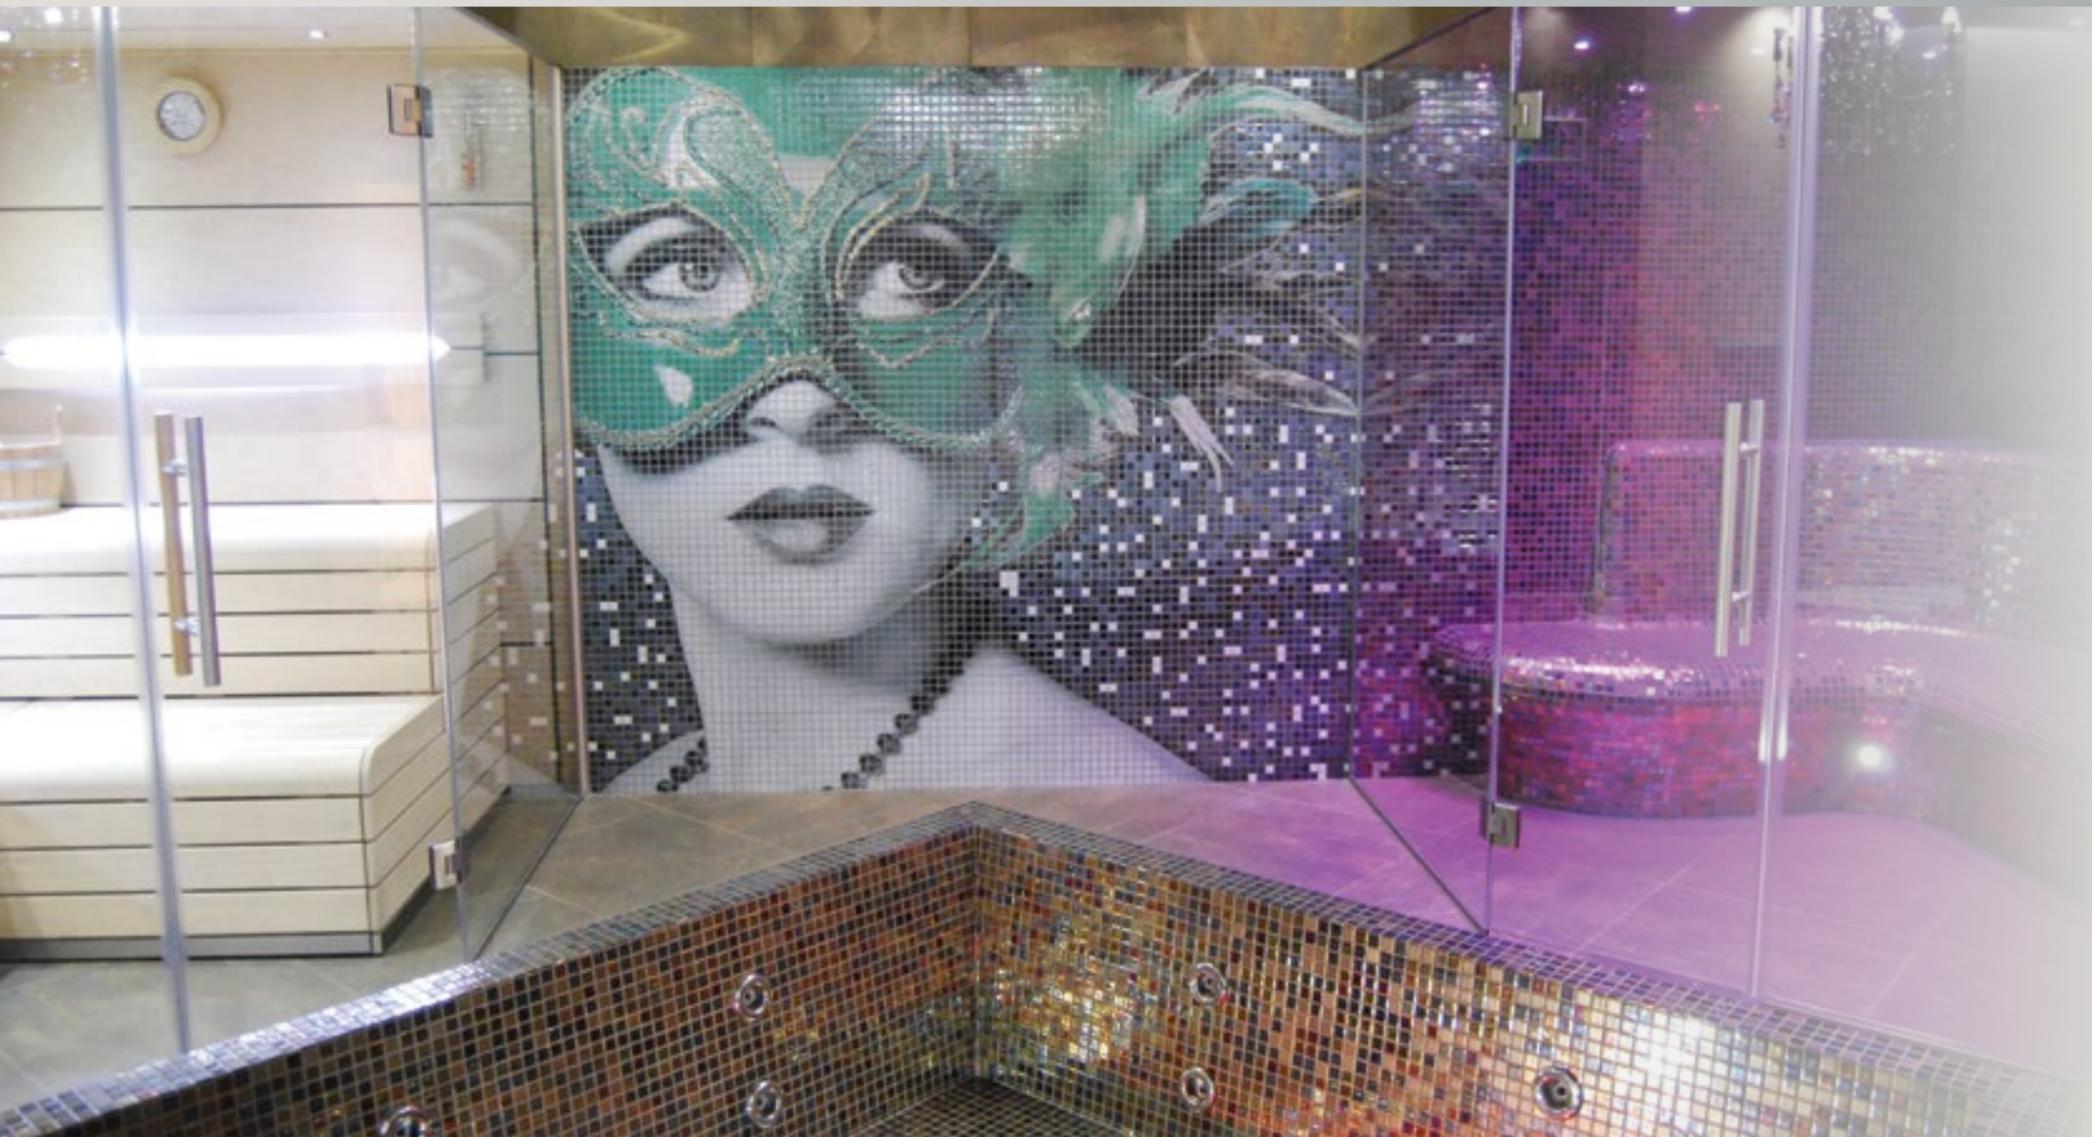

Commercial projects

Portrait not only works within the residential market but has successfully completed a wide range of projects in the public sector including schools, leisure centres, hotels, wellness centres and health Spas. Large commercial projects require an innovative, proactive approach. Portrait has the specialist expertise and industry knowledge to see a project from initial design through to handover.

We both design and install Commercial pools of all sizes as turnkey projects. From the initial concrete base through to energy efficient water and air handling systems, environmental control, automatic chemical dosing to the most intricate finishing touches ensuring that everything is completed to the highest SPATA standards. We also provide integral spas, steam and sauna rooms and hydrotherapy pools; the complete commercial package.

Showroom

Everything Under One Roof

As the UK's leading luxury Spa and pool provider, Portrait are continually innovating and investing in our proposition to ensure our customers get the finest and most comprehensive service. Our quality and distinction is reflected in some of the finest, award winning residential and commercial swimming pools, spas and water features seen in the UK.

In order to fulfil this ethos, we have opened a new state of the art showroom located in Bollington at the heart of the beautiful Cheshire countryside. This design led, purpose built showroom perfectly showcases the most comprehensive range of luxury swimming pool finishes, spa and sauna displays in the UK. Not only can you view displays of Extra-large format Italian porcelain and Ezarri glass mosaics but you can see large digital printed examples in addition to internal and external natural stone tiles and walling as well as numerous stretch ceiling displays with LED lighting systems and a selection of the hyper luxury Sommerhuber Wellness product range.

This is not just a showroom; you will experience a functioning steam, spa facility and showpiece bathroom in the main hall. With its additional space, we now can display a fantastic fully functional home cinema as well as demonstrations of Home automation and lighting systems for the pool, pool hall and the home. Next to the in-house design studio there are new onsite meeting facilities for your architects, contractors and interior designers. This one of a kind facility ensures Portrait stay at the forefront of pool, spa and home entertainment design innovation.

Awards

Reflecting on our Continued Success

As you flick through this brochure you will see a small selection of the many beautiful commissions we have received over the last three decades. We have many glowing testimonials from our customers and with over forty top Prestigious Swimming Pool and Allied Trade Association (SPATA) Awards it is not difficult to understand why Portrait Pools is regarded as the UK's leading Pool and Spa provider.

We believe though the greatest measure of our success is our work and the greatest endorsement is the customer referrals and recommendations we receive from our customers for fulfilling their dreams.

The mission of the British Pool & Hot Tub Awards (SPATA) is to recognise the achievements of the wet leisure industry, by showcasing the best examples of design, construction, installation and innovation. Portrait has been awarded the Prestigious National Pool Contractor of the Year on a record four occasions and has won over 100 industry awards for its Residential and Commercial projects.

As the UK's leading pool and spa supplier, Portrait in 2015 was entered into the third European Pool & Spa Awards hosted by the European Union of Swimming Pool and Spa Associations (EUSA) at the Piscina & Wellness exhibition in Barcelona. EUSA represents over 3,000 swimming pool and spa companies across Europe and the awards are judged by top industry professionals representing the EUSA members. The awards have five categories, with fourteen winners announced across the 13 countries. Portrait was awarded the highest accolade of the European Domestic Indoor Pool Of The Year.
